

## Job Description

<b>POSITION TITLE:</b>	<b>CNC Operator</b>
<b>Department:</b>	CNC
<b>FLSA Status:</b>	Non-Exempt, Full-Time
<b>Reports to:</b>	Plant Manager
<b>Direct Reports:</b>	No

### Position Summary

The CNC Operator will report to the Plant Manager. This position is responsible for operating computer numerically controlled (CNC) machines to support production demands. The duties performed include, but are not limited to the following:

- Prepare and operate CNC machines to process aerospace metals, tool steels, and end fiber materials using FANUC and Gibbs software.
- Read information in job packet and interpret blueprint to determine materials, specifications, and tolerances for parts.
- Use measuring equipment, such as calipers and micrometers to check accuracy of dimensions.
- Perform routine quality checks during production runs and recognize any unacceptable defects on parts.
- Troubleshoot defects/out-of-tolerance issues and adjusts set-ups as needed.
- Inspect and measure finished products to determine if the process has been completed properly.
- Monitor output and proper operation of equipment.
- Maintain required paperwork for traceability and AS9100C requirements.
- Check and maintain machinery daily to ensure functionality.
- Follow established quality, safety, and production procedures.
- Perform other duties as required.

### Job Requirements

- Excellent written and verbal communication skills.
- Ability to effectively prioritize and execute tasks in a high-pressure environment.
- Ability to read/interpret blueprints and technical documents.
- Effective math skills and mechanical aptitude.
- Reliable work habits with a proven excellent attendance record.
- Motivated with the ability to work independently with limited supervision.

#### Disclaimer

This job description indicates in general the nature and levels of work, knowledge, skills, abilities, and other essential functions (as covered under the Americans with Disabilities Act) expected of an incumbent. It is not designed to cover or contain a comprehensive listing of activities, duties, or responsibilities required of the incumbent. An incumbent may be asked to perform other duties as required.

We are an Equal Employment Opportunity (EEO) and Affirmative Action (EEO) Employer and makes employment decisions without regard to race, gender, national origin, religion, disability, age, citizenship status, protected veteran status, or any other class protected by law.

## Education & Experience

- High School Diploma or equivalent.
- 1+ years of experience working in a manufacturing environment, preferably metal parts fabrication.
- 1+ years of experience using CNC Milling machines preferred.
- Experience with high precision/tight tolerance metal part fabrication
- Familiar with ISO9001 and, preferably AS9100D.

## Physical Requirements

- Ability to lift, push, and/or pull up to 50 lbs.
- Ability to stand for long periods of time.
